BELLEVILLE, WEDNESDAY, MAY 3.

Town and Vicinity.

POLICE COURT.—There was no business in the Police Court this morning.

BROOKS vs. TAYLOR.—In this case a summons has been taken out for another summons.

RIFLE CLUB.—An adjourned meeting of the 49th Battalion Rifle Club will be held at Hanley's this evening.

OMISION.—By an error of a compositor the name of Mr. Lattimore was omitted from our report of the Council meeting of Monday night.

THE CENTENIAL YACHT.—It has been settled that the centennial yacht *Courage* of *Deffries* will be launched at *Courage* on Monday next.

CLOTHES.—The police investigation was brought on an yesterday afternoon, when the Commissioners reserved judgment, which they will deliver in a short time.

NEW CHEESE FACTORY.—The last Ontario *Quebec* announces that letters patent have been issued incorporating the "Enterprise" Cheese Manufacturing Company, of the Township of Rawdon.THE MARKET.—A correspondent of the *Brookville Recorder* writes to that paper from Belleville, pointing out the arrangements of our market, which he considers one of the best in the Province. Correct.

TREES.—Large quantities of fruit and ornamental trees are being received here daily. Most of them come from the United States, but the Canadian nurseries also receive a fair share of patronage.

FIREBRENT.—A lady whose child was at play on a street down which a runaway horse took its course yesterday afternoon, became so terribly afraid that her little one would be killed that she became hysterical. The child was not hurt, and the mother soon recovered her composure.

BASE BALL.—There is quite an awakening among the youth of the town on the base ball question, and play is being engaged in. A match was played yesterday between the junior Clippers and a nine from the Commercial College, which is said to have resulted in favor of the former nine.

IMPORTANT SALE.—A large amount of silver ware, plated goods, &c., will be offered for sale daily by Mr. Charles Wilkins, auctioneer, in the store in the Victoria Buildings formerly occupied by Mr. Walters, commencing on Saturday next. The goods will be open for inspection on Friday afternoon. For other particulars see advertisement.

CANADIAN MONTHLY.—This monthly is winning its way gradually into popular favor, and it is gratifying to learn rapidly extending its circulation throughout the Dominion. Mr. W. O. Andrews, General Agent for the Magazine, has been successful with the object of obtaining subscribers and advertisements, and we heartily wish him success in his undertaking.

THE CELLS.—There were eight men in the cells last night for protection. Two of them refused to give their names, but a threat from the warden, who was in the confidant until they complied with his request brought them to their senses, and after complying with the formality of registering their names upon the record they were sent on their way.

LUMBERING.—It does not seem probable that the cut of lumber here this season will be at all extensive. Messrs. Rothman's mill, which cut annually from 8,000,000 to 10,000,000 feet, has been closed, and only three mills out of the remaining eight are in operation. Some of these mills may be in operation later in the season, but as very small number of logs—fewer than for many years past—have been got out. Altogether the prospects of the trade are not very bright this year.

CHECK.—As yet the local cricket club has not been organized for the season, and appearances indicate that no action will be taken towards that end. It is to be regretted that such should be the case, as the Belleville Club has taken the field year after year for a long time. Always a strong playing Club, it has been a good one, at one time being second to none in the Province. Of late years less interest has been taken in the game; practice has been comparatively neglected, and the strength of the Club has waned, though last year's season generally was played, only one defeat being encountered, whilst games with strong clubs were drawn in favor of Belleville. We hope, therefore, that the club will be re-organized, even if fewer matches than usual be played. Should the Belleville Club be inactive during the season, the town will be represented in the cricket field, for the *Deffries* Club, formerly the *Belleville Juniors*, is composed of a number of active young men, and will, if practice be paid attention to, make the strongest team that will put forth all their skill to win a victory.

SCARCITY OF PROVISIONS ON THE COAST.

QUEBEC, May 3.

The Master of the schooner *Arctique*, from Magdalen River, met very little ice in the River from Father Point up. He also reports a scarcity of provisions on the coast. Intelligence has been received from St. Thomas announcing the death of Judge Gauthier.

A \$77,000 FIRE.

"IRREGULARITIES."

WHAT A CIGAR DID.

ON THE WAR PATH.

ASHBURY TREATY ADOPTED.

A Good Chance for Criminals.

NEW YORK, May 3.—A fire at 178 Pearl street last night damaged the stock of Straton & Stern, tobacco manufacturers, to the amount of \$75,000, damage to building \$7,000, and a number of other tenants, chiefly lawyers and tobacco merchants, suffered some loss by smoke.

Willis, of the House Naval Committee, has stated that the irregularities developed at Brooklyn Navy Yard and its vicinity are not as serious as they are generally understood to be, and that it is generally understood that naval officers are not as corrupt as they are generally supposed to be. Some have testified that the patronage of their department has been used for political purposes, though without their complicity.

A New Haven despatch says A. L. Bethell was burned to a crisp in a chair beside the stove in his jewelry store yesterday. Incense was that he had been heart disease while smoking, and that his clothes took fire from his cigar.

QUEBEC, May 3.—Lieut. Hoyle's command on April 26th attacked a party of Indians about 10 miles from the Fort, on Long River, Nebraska, and killed 10 Indians. Sergeant Dougherty, of the 23rd Infantry, was killed.

NEW YORK, May 3.—Washington despatches say that a Cabinet meeting held yesterday decided that formal notice should be given to Great Britain of the abrogation of the 10th article of Ashburton's Treaty, which relates to the extradition of criminals between the two countries. This decision was reached after the cabinet had discussed the British Cabinet on Saturday in ordering the release of Winslow. The Treaty provides that the 10th article may be abrogated at any time upon notice by the British Government. It is a case within the power of the Executive Department of our own Government to give this notice of abrogation without the assent of the Senate. Secretary Fish formally notified the British Government last evening of the action of Cabinet.

BELLEVILLE, SATURDAY, MAY 6.

Town and Vicinity.

BOARD OF EDUCATION.—A regular monthly meeting of the Board of Education will be held in the Court House on Tuesday evening at the usual hour.

POSTOFFICE.—The Cobourg Sentinel of today announces that the launch of the centennial yacht *Countess of Dufferin*, which was set for Monday, has been postponed until Wednesday evening next.

THE DOMINION MONTHLY. For May contains a portrait of Rev. Mr. Bond, L. D. Dean of Montreal, and its columns are replete with a choice variety of reading. Published by John Douglas & Son, Montreal at \$1.50 a year.

THE CELLS.—There were three lodgers and two prisoners in the cells last night. As the weather becomes milder the number of tramps decreases—that is, of tramps who are willing to work, as labor is gradually becoming more plentiful.

RAIS—As "Probabilities" predicted would be the case, rain fell quite heavily during the night. These showers may retard spring work a little, but the pastures and fall sown grain will profit greatly by the additional moisture.

DUCK SHOOTING.—Sportmen are having excellent sport amongst such ducks as are not protected by our game laws, which are in large numbers about Massena Point. Several heavy bags have been made with in the last few days.

THE MARKET.—There was an excellent supply of produce on the market this morning. Prices, as is usually the case on Saturdays, were above the average of the week, though a few articles ruled low. Butter sold at 25c to 30c; eggs at 11c to 13c; and so on to 6c.

BIG EGGS.—Mr. Thos. Hardy has a fowl which is bound to achieve distinction as a layer of big eggs, it having presented its owner the extraordinary weight of an egg measuring 3 inches in length, 8 inches in circumference lengthwise, and weighing 33 ounces.

COUNTY COUNCIL.—A special meeting of the County Council will be held on Tuesday, for the purpose of formally ratifying and confirming the By-law granting a bonus of \$30,000 to the Belleville and North Hastings Railway Company, recently passed by the railways.

POPULATION.—The assessor for the town of Hinton has arrived, and the roll shows a total population of 2,767, an increase of 164 during the year. Amount of property assessed—Real, \$719,700; Personal, \$73,000; Income, \$15,700; Total, \$808,700.

DRINKING.—The Toronto Globe says Captain Paul of Belleville has arrived there to superintend the work of the new channel. The Western channel will be dredged to a breadth of 500 feet, and the rock will be blasted to give a depth of 14 feet to the Queen's wharf.

IMPORTANT SALE.—The auction sale of farm stock, implements and household furniture on the premises occupied by Mr. J. M. Feasby, 2nd corner, Thurlow, will commence on Tuesday next at 10 o'clock a. m. Several thoroughbred horses, including the famous stallion "Slip Bang," will be offered by private sale, also a number of Ayrshire cattle with full pedigrees.

THE ROCHSTER.—This favorite steamer, which is daily running her regular trips, is again under command of Capt. Campbell, who has worthily gained the favor of travellers on the route, and others who transact business with him. She leaves Belleville at 5 a. m., on Mondays, Wednesdays, and Fridays, and at 2:45 p. m., on Tuesdays, Thursdays and Saturdays. Passengers will find every comfort on the boat, and freight is carried at reasonable rates. The time table for principal ports will be found in the advertisement.

COV BY-LAW.—If the Town Council will have the By-law providing against the running at large of complete dogs, and those within the limits of the town put in force, it will be necessary to appoint another inspector, as Mr. Bogni, who formerly held that position, has been legally removed from office. The By-law provides that the "Inspector of Licenses for the time being" shall be the person to carry out its provisions, but as the Inspector of Licenses is no longer a municipal officer, and the Government have legislated the former Inspector out of office, it is self evident that the situation is vacant. The Council ought, at its next meeting, to amend the section of the By-law referring to the Inspector of Licenses, and to appoint Mr. Bogni, who has legislated the former Inspector out of office, it is self evident that the situation is vacant. The Council ought, at its next meeting, to amend the section of the By-law referring to the Inspector of Licenses, and to appoint Mr. Bogni, who has legislated the former Inspector out of office, it is self evident that the situation is vacant.

A CASE OF "SOUTHERN GRAPES."

SCANDALOUS CONDUCT AT A DIVORCE COURT.

THE COMMAND IN THE NORTH-WEST.

BUFFALO, May 6.—The propeller *Portage* and *Haverly* arrived from Chicago at 6 p. m. yesterday. These are the first arrivals from the upper lake this season.

NEW YORK, May 6.—The German American Independent Citizens' Association last night passed a resolution, denouncing the action of the Centennial Commissioners in closing the Exhibition buildings on Sunday, as contrary to the spirit of the Declaration of Independence, and liberal spirit of the age.

Charles Francis Adams has been interviewed on the Presidency question; he says, "I have no feeling in that direction, it is a thankless office at best, and whoever is President must expect a dose of a time, with a vast amount of care and trouble." He regards his nomination to the Vice-Presidency by the Labor Convention as rather amusing, and says: "As for the Presidency, it is something for which I can have no desire, nor can I see that other party, as such, would be likely to come to me, for I am not in sympathy with politicians, and have never acted as a party man."

In the Supreme Court yesterday, in sustaining an order setting aside a divorce, Judge Daniels delivered a scathing rebuke to the professional divorce lawyers, who manifested no evidence to support their case. In the present case the wife testified that the evidence on which she was divorced was furnished by a lawyer named W. H. Gale, whom she had consulted in regard to an amicable separation, and who was also attorney for her husband. Gale took her to a hotel on pretence of consultation, registered himself and her under fictitious names as husband and wife, and forced his presence upon her all night. Judge Daniels, in commenting on Gale's conduct, says a more flagrant case of professional misconduct, duplicity and crime combined, has never been exhibited in any case of this description. The order vacating the decree of divorce and granting alimony to the wife is affirmed.

A Chicago despatch says orders were telegraphed to Gen. Sheridan on Thursday, instructing him to permit Custer to proceed to Fort Lincoln, Dakota, without delay, but the President's directions not to permit Custer to accompany the expedition thither to move against the hostile Indians. Under these circumstances this leaves him stripped of his legitimate command.

BELLEVILLE, TUESDAY, MAY 9.

Town and Vicinity.

THE CELLS—Three prisoners occupied the cells last night. No tramps sought admission to the dormitory.

BOARD OF EDUCATION—The regular monthly meeting of the Board of Education will be held this evening at the usual hour.

THE 49th—The following appears in the official Gazette of Saturday: "49th Hastings Battalion of Rifles. No. 2 Company, Stirling. The resignation of Elgin James Parker is hereby accepted."

COLLECTION—The mass of the girl arrested in Prince Edward on the charge of murdering a child is incorrectly given to us as *Lavelle*. The correct name is stated to be *Lovett*.

CANADIAN REGISTERED—Amongst the Canadian visitors who registered their names at the Canadian Government office in London, during the week ending 20th April, 1876, we notice those of Dr. Stewart, Belleville; Miss Stewart, Belleville; C. G. Stewart, Lindsay.

A LARGE PETITION—The petition to the Town Council for the submission to the voters of the ratemakers of a By-law granting further aid to the Grand Junction Railway Company to the extent of \$80,000 is a rather formidable document. It has attached the names of 420 ratemakers, amongst which are those of most of the heavy taxpayers of the town. So largely and influentially signed a petition has not in a long time been presented to the Council.

KIDNAP ON THE AIR—We understand that David Townsend, who was killed by a train on the Great Western Air Line at Nelles Corners on the 4th, was a native of and until lately resident in this County, being a grandson of Mr. Samuel Townsend, who lived near Hallowell. When the relatives were apprised of the terrible death of the unfortunate man they telegraphed to the railway authorities to forward the remains here for interment, but received reply that they were not to be tamely mutilated to bear transportation. The corpse was accordingly buried in the burial ground nearest to the scene of the tragedy.

CANADIAN MONTHLY—We have received the May number of this able periodical, which has a varied and interesting table of contents. Amongst other more noticeable of the articles is "How to Treat the 'Canadians'," by Lieut-Col. Coffin, Ottawa, which is remarkably appropriate under present circumstances. Prof. Goldwin Smith, contributes an article on "The Immortality of the Spirit." Dr. W. M. T. Watson, of Kingston, and others are contributors of verse, and there are several poems in the issue before us, besides the usual discussion of "Current Events." Book Reviews, &c., the whole making up a highly interesting number.

CHURCHES—There are no less than 14 churches in the town, which are distributed amongst the following religious denominations: United Brethren, 2; Wesleyan Methodist, 3; Presbyterian, 2; Episcopal Methodist, 1; Roman Catholic, 1; Baptist, 1; Bible Christian, 1; Congregational, 1. In addition to these is the Kingston Road Methodist Church, a short distance beyond the eastern boundary of the town, and which is supplied from Belleville, and the Episcopal Methodist will erect during the present season an additional church in the College district, for which they have secured a site, and a large amount in subscriptions. It is also rumored that the Roman Catholics intend to build another church in town. Under these circumstances it cannot be said that the town is lacking in religious accommodation, the more especially as nearly all the denominations are adding constantly to their membership.

NO QUARTER—A special meeting of the Town Council was called for last night, for the purpose of introducing a By-law for granting further aid to the Grand Junction Railway Company, but owing to a misunderstanding a quorum of members was not present, consequently no business was transacted. It appears that previous to the issue of the notice calling the Council to meet, the Chairman of the Finance Committee had called the Council together, for the same reason, and the Committee declining to give way, a quorum of Council could not be secured. Mr. Kelso, President of the Grand Junction Company, and Mr. Jas. Brown, M. P., who were present, are in attendance prepared to give any explanations that might be required, and a considerable number of spectators had gathered outside the hall. The Mayor took the chair at a few minutes past nine, and the proceedings were opened by the Mayor, who read the minutes of the last meeting, and then proceeded to read the report of the Finance Committee, who were meeting in the Clerk's office, to attend, but they preferred

to go on with Committee work, and, there not being a majority of members present at the appointed hour, the Council adjourned. A requisition was at once drawn up and signed, requesting the Mayor to call another meeting for Wednesday night, for the same special object as was set down on the programme for last night.

TO CORRESPONDENTS—The letter of Mr. A. R. Dougall, was handed in too late for to-day's issue.

PERSONAL—Mr. Barber, general travelling agent for the Route, Waterfront and Oshkosh Railroad, was in town yesterday. He has understood, appointed Capt. J. C. Hayes, U. S. Consul, agent here for the sale of tickets, on the road with which he is connected, to Philadelphia.

MISCHIEF—The butchers complain that a number of mischievous boys nightly throw sand, &c., from the streets into their stalls in the market, thereby doing great damage to the meat exposed for sale. The police have been instructed to be on the alert to detect such offenders, who, when caught, will not be punished severely, for a more wanton piece of mischief, it would be difficult to imagine. If the boys question are wise, they "scent" and "scent" away, as capture and punishment are likely to be the consequence of their misdeeds.

MISSIONARY TO JAPAN—The Methodist Church of Canada, with that spirit of enterprise which is characteristic of it, sent two missionaries to Japan some three years ago. They have been so successful, and have been so successful, that they have been able to secure additional laborers. The Missionary Committee have had the question under consideration, and have decided to send two more missionaries to Japan. One of the gentlemen selected for this important work is the Rev. George M. Moacham, M. A. of Dundas, son of our respected Mayor. We understand that the Rev. Mr. Moacham has accepted of the call of the church and will during August or September, leave Canada for his new mission. We are sure we express the feelings of all who know the Rev. Mr. Moacham, when we say that he is eminently qualified for the work the church has assigned to him, and that his numerous friends in Belleville wish him every success.

PREPARING TO DISBAND—A recent amendment to the city charter of Oswego established a paid fire department, and the consequent disbandment of the volunteer organization now in existence. Many have been the courtesies exchanged between the Oswego and Belleville Departments, pleasant recollections of which linger in the memories of members of both brigades. Many have been the courtesies exchanged between the Oswego and Belleville Departments, pleasant recollections of which linger in the memories of members of both brigades. A CABLE DISPATCH—We have received the account of the death of the Hon. J. M. Spence, who in London after the former King, was in the Stock Exchange Board, is as follows: "Louisville officers after Rivers, and Boston officers after Winslow, and self-nombed at the time in affairs. Saturday Review and Pall Mall Gazette side with us. Try and stir up New York papers to press for an early settlement. The present condition of things is a luxury to the radicals and an expense to the governments, and tie our hands."

NEW YORK, May 9.—No person was killed by the Hoboken Street Car Elevator accident last night, but several were badly injured, and they will undoubtedly die. The car contained twenty-five passengers, not one of whom escaped unscathed.

The Executive Committee of the Amateur Rifle Club have prepared a circular inviting the riflemen of the United States to compete for places on the team in the First American match of 1876, which will take place immediately after the Centennial matches. Eight men will constitute the team, and four reserves, and will be selected from the result of three competitions.

Twelve incendiary fires within six days near South Oyster Bay, Long Island, recall to the residents there the threat of Alfred Jarvis before his execution, for the incendiary fires in 1873, that his death would be avenged by fire. A fire patrol has been established.

Mr. Roach, ship-builder, was examined by a Naval Commission yesterday. He gave a succinct and detailed account of his transactions with the Government during the last 10 years, denying in toto the charges of improper influence in obtaining Government contracts. He admitted that he had sometimes paid political assistants; but on one occasion he had contributed towards the election of Gov. Hoffman, and he had generally given as much in this way to one party as to the other.

A cable dispatch from Detective Sampson, who is in London after the former King, was in the Stock Exchange Board, is as follows: "Louisville officers after Rivers, and Boston officers after Winslow, and self-nombed at the time in affairs. What Might Have Been.

NEW YORK, May 9.—P. M. Rubenstein, condemned for the murder of the Jewess, Sarah, died this morning at 10 o'clock in his cell, at Baymont street jail. Cause general delirium.

LONDON, May 9.—A special from Berlin to the Pall Mall Gazette says Germany has accepted the Pope's offer to the Pope's offer for the Salonic outbreak, provided promises be carried into effect immediately approaching the conference between Prince Gortschakoff and Count Andrassy, which will be held at the latter's official residence in Athens.

Arrived out, the steamship *Atlanta* and *Attila*, from New York and *Moravia*, from Portland.

Baltimore, Md., May 9.—During the closing of Barry Sullivan's representation of Richard the 3rd at the Opera House last night, smoke was seen to be rising over the stage. The entire stage audience arose to leave and a stampede was imminent, but was averted by the actor stating that the fire was extinguished. The smoke soon ceased so dense that the play was necessarily suspended and the audience retired, but to order for such a narrow staircase from the hall to the second story was the only means of exit, all escaped injury. The fire was in the basement of the building, and was caused by a candle in the dressing room, which was occupied by Wilmington, Gibbs & Co., as an auction room. The building and stage were damaged to the extent of \$1,000.

WASHINGTON, May 8.—Probabilities.—In Middle States falling barometer, by rising or stationary barometer, variable winds shifting to southerly and southerly, cool, raining weather, accompanied tonight by clearing weather.

A LOW LIE.—When Mathews, the old orator, was a boy, and lived with his father, the backslider, he was once called to a party, where he was to deliver a sermon. He was a very poor preacher, and his sermon was a very poor one. He was a very poor preacher, and his sermon was a very poor one.

BEHAVIOR, WEDNESDAY, MAY 10.
THE GRAND JUNCTION.

A special meeting of the Town Council has been called for tonight, for the introduction of a By-law to grant further aid by way of bonus to the Grand Junction Railway Company, to secure the completion of the road to Peterborough.

It is to be hoped that the Council will carry out the wishes of the large number of ratepayers who have signed the Memorial, and also those who expressed themselves at the public meeting as favorable to an additional bonus, and submit the By-law to the people of Belleville as early as possible. While we do not advocate undue haste in an important matter like this, still it is well in the interests of the Road, that decisive action be taken with as little delay as is consistent with a proper consideration of the subject.

WHAT IT COSTS TO GOVERN CANADA.

A Toronto contemporary has been figuring on the not unimportant subject which forms the heading of this article, and the conclusion which he reaches will perhaps be interesting to those who have not given a thought to the matter. According to the arithmetic referred to, if we take 760,000, the number of families in the Dominion, and divide the annual cost of each of the three governments, it will show the annual cost per family for each as now as follows:—The net amount for Dominion Government, after deducting subsidies for Provincial Governments, is \$10,900,000, which divided by 760,000 gives \$9.27 per family. The net amount for Provincial Government is \$7,768,894, which is \$10.22 per family. Net amount for Municipal Government, \$10,773,892, that is \$13.51 per family, as below recapitulated.

For Dominion Government, \$10.27
" Provincial " 9.22
" Municipal " 13.51

Total annual cost per family \$33.00
In 1853 the population of Ontario, then Upper Canada, was nearly 100,000, or about 30,000 families, and the cost of government \$35,000, \$1.16 per family. In 1850 the cost was \$7.75 per family. For the 26 years from the Union of Upper and Lower Canada in 1841 to the time of the confederation the cost of government, exclusive of municipal expenditures, was \$104,025,933. In this amount, the estimates for 1858, '59, '60 and '62 having been omitted, these years are averaged at the figures for 1861, and those for 1865 and '66 are averaged at those for 1867, which will be sufficiently accurate for these calculations. The population of 1862 was 1,118,223, or 187,000 families, which divided by 187,000 gives \$3.00, and for the next six years will be 2,000,000, or 400,000 families of five each. Dividing that cost of government by the number of years gives us an average of \$5.40 per annum, which divided by the number of families, or 400,000, gives us \$14.86 per family annually, for what is now embraced in our Provincial and Dominion expenditure, which as above seen now averages \$36.40 per family. In 1867, the last year of the old Union, the cost for what is now Provincial and Dominion Government was \$12,418,100, to a population of 540,000 families, or \$23 for each family. Thus an increase since 1867 of \$16.40 per family for these governments. Can such extravagance last?

The national return from Germany for 1869, that is after the great war with Austria and before, and while preparing for that with France, shows that the total expenditure of the Government was \$109,037,546, of which \$14,928 was not for the regular cost of government, but for extraordinary purposes. But taking the whole expenditure, and dividing it by 37,322,366 souls, or 7,240,000 families, it only gives \$1.51, or 60 taxation per family, which includes their immense annual expenditure for military purposes.

The above facts are rather startling in their import, let the debt of Canada in 1876, on the contrary, was \$1,000,000,000, Great Britain, Germany and other powers, which represents nothing, the expenditure of treasure, along with a vast quantity of blood still more valuable, having been incurred in war from time to time. Our debt, on the contrary, was \$1,000,000,000, a very large extent in the construction of great public works, the effects of which upon the revenue will be beneficial in years to come. It cannot be denied that the cost of civil government is large, but as long as we are governed by a party which has no higher motive than the purchase of a lease of power by the increase of place of all descriptions, and the crowding of public offices with creatures of their own, we are permitted many other leaks in the treasury to go unchecked, no improvement of our financial standing can be looked for.

REIGNITION ACCEPTED.—An Ottawa despatch to the Toronto Telegram says:—"The Minister of Justice has accepted Judge Lafontaine's resignation, and the joy of the people in Ottawa County. His successor has not yet been mentioned, though it seems to be expected that Mr. Teasdale, M. P., will be offered the position."

SEVERAL ANNOUNCEMENTS.—The Rev. John Potts, of Toronto, stated on Sunday, that in consequence of so many announcements of deaths, suicides, marriages, &c., being handed to him for announcement in his paper, he had resolved not to announce any more in the future. There were no newspapers in Toronto, and they were the mediums for conveying the announcements so often proclaimed from the pulpit.

County Council.

SHIRE HALL, Tuesday, May 9.

The Council met at 2 o'clock p.m. for the purpose of passing the By-law granting a bonus of \$50,000 to the North Hastings Railway Company.

PRESIDENT.—His Honor the Mayor, Messrs. Ems, Haggerty, Graham, Ogden, Walker, W. A. Anderson, McLean, Wilson, Chalmers, Grass, Green, Vankloek, Aylsworth, Flint, Wood, Hudson, Ashley.

The minutes of the last meeting were read and approved.

The Mayor stated the object of the meeting, adding that the By-law had been carried by a large majority, and it was for the Council to take the necessary action.

The Clerk read the return of voting on the By-law, as made by the Deputy Returning Officer, namely, 11 yeas and 41 nays, 60 yeas and 11 nays, and 41 yeas and 11 nays, making a majority of 90 for the By-law.

Mr. Wood said that his object in meeting was to carry out the law, in passing the By-law, which had been carried by the people by a very large majority. He moved the third reading of the By-law, and the Council was very satisfied, and he thanked the people of the front Township for their liberality, which would not soon be forgotten by him. He was doing all he could to make the enterprise come up to their expectations.

Mr. Vankloek seconded the motion. Mr. Flint asked as to the expenses of the maintenance of the By-law, which ought to be settled before the motion passed.

Mr. Haggerty had understood from Mr. Wood that the \$50,000 provided would be sufficient to pay the expenses of maintaining the By-law, but it had not so proved, and he had no doubt that notwithstanding rumors as to the standing of the promoters, they would make up the deficiency.

Mr. Wood said the discussion had turned on matters outside their duty, which was simply to pass the By-law. The expense would, however, be made up by the payment of the full amount of the expense of submitting the By-law—in fact, he considered it their only honorable course. The \$50,000 had induced him to make his motion, and the three governments, it will show the annual cost per family for each as now as follows:—

Mr. Flint had only asked for information, not intending to oppose the passage of the By-law for a legal By-law. Previous experience had induced him to make his motion, and he considered it his duty to take the course which he did. If other steps could not be taken, at all events they ought to know what the cost of submitting the By-law was. No doubt the balance would be paid, as they had the assurance of the Provisional President of the Company that it would be paid.

Mr. Wood refused to be bound by what Mr. Flint understood. He had simply stated his own opinion. In the case of the other By-law extra matters had been introduced, which the Company had not paid, but they had paid their own full share of the expense, and more.

Mr. Ashley thought that when a By-law was passed by the people, it became the property of the people, and all expenses ought to be paid by the ratepayers.

Mr. Wood differed from Mr. Ashley, he considered the Company bound in honor to pay the expenses.

Mr. Haggerty did not wish to be understood as opposing the By-law.

In answer to Mr. Grass, the Clerk stated that all the accounts, except those for Hunt-ington, were in. Some of them were placed very high, and would have to be reduced. He read the accounts, as presented, namely \$832.70. The whole expense would be about \$850.

Mr. Flint said the County had paid \$366 on the former By-law, which would not have been incurred but for the promoters of the Railway wishing the assistance of the extra-municipal matters proposed by Mr. Wood. He contended that the present By-law was illegal, all the provisions of the new Act not having been complied with. An Act of Parliament would be required to be passed. He did not intend to move against the By-law, but should abstain from voting upon it.

Mr. Wood said that he had a very imperfect knowledge of the new Bill of Act, and that only one case had been presented after the submission of the By-law. The spirit of the law had been carried out, and he might have said that the By-law was not passed on technical grounds, but he was spoken of by Mr. Flint. If there were any irregularities, they could be legal by the By-law by proposing it for a certain length of time, or they could go to the law, and have it legalised. It was well, however, to have their attention called to the matter, so that any necessary steps could be taken. Rumors of a possible failure of the scheme had been spoken of, but he could say that there was no such danger. A large amount of money had been invested in the work, all of which was the private funds of the promoters, and he had met all claims against them. The Company would be formally organized on the 17th, and he had no doubt that energetic steps for the completion of the road would then be agreed upon. The Council could judge of the prospects of the road from this statement of facts.

Mr. Flint did not intend to put the By-law into Court, as he was willing to leave the decision of the majority. As the law had not been complied with, he wished to be excused from voting.

The By-law was then read a third time, passed and numbered 603. Council adjourned, after passing the account of the Treasurer.

MURDER AND MURDER.—A cable telegram of the 10th May, says:—"The British Consul at St. Janeiro reports by telegraph that a native boy, who had been taken to a gentleman who was about to be executed, was murdered by the natives."

FLOOD IN OTTAWA.—Reports from Ottawa on the evening of the 8th says:—"Gaiting Point Village is inundated. The water has reached the eaves of some of the small houses. It is reported that it will rise two feet higher before the close of the day. The Chaudiere lumber yards are completely submerged."

IT IS STRONG TESTIMONY to the popularity and usefulness of the Cossack that it has a host of imitators. One of these is a Cossack to observe that the full name "Barrett's Cossack" is printed on the wrapper, and is blown in the glass. The scheme has been used with infirmities upon our name and the name will be blown in the glass. The name is used. This tribute of imitation is also all meritorious and successful preparations.

The Clark & Co. Extra Quality Silk Cord Cotton, with an extra quality silk cord, Sewing Machine Agency, No. 10, York Street, is now on hand.

Belleville Methodism.

The quarterly official meeting of the Belleville Circuit has been held at the residence of the year's work in the highest degree gratifying. The

BELLEVILLE FIRST CHURCH.
comprising Bridge Street, West Belleville, and Kingston Road Churches, report an increased church membership of over thirty, an addition of one hundred and fifty scholars to the Sabbath School, a very large increase to the congregation, the Bridge Street Church especially in the evenings—being crowded, and the West Belleville Church, uncomfortably filled, necessitating the building of a much larger church, and the Kingston Road Church largely attended, and the financial resources of the year have been most successful.

The Rev. S. P. Rose a more than usually enthusiastic invitation to the junior minister for another year, thus testifying to the high opinion formed of him and his labors. In view of the probable removal of the Rev. Wm. Briggs to the Metropolitan Church in Toronto (to which we have before referred), the Quarterly Official Board, at its meeting on Monday evening, passed a very complimentary resolution, expressing the gratitude of the members to "for the loss of a good pastor, and additions to the church membership, increased contributions, unexampled financial prosperity, &c., &c., and attributing these blessings to the large and devoted (old) to the unwearied pastoral visiting, eloquent and impressive sermons, wise administration, and untiring labors of the Rev. Mr. Briggs. Should Mr. Briggs be removed the conference has been unanimously requested to appoint the Rev. Geo. Young, of Winnipeg, Manitoba, as his successor. The present church year ending is 455. Sabbath School teachers and officers, 63. Sabbath School scholars 571. Women in Sabbath School Libraries 173.

BELLEVILLE 2ND CHURCH.
—formerly Blocker Street Church—has had a remarkably successful year, commencing nearly a year ago with a membership of 30, it has now increased to over 100. The membership of scholars attending the Sabbath School, 140; officers and teachers 15; women in the Sunday School Library, 50; and the congregation is four times as large as formerly. These facts are the best proof of the wisdom of the Blocker Street Church in moving to its present site, and the Rev. T. H. Cullen has labored in this latter to comparatively fruitless church.

The total church membership on this was formerly the Belleville Circuit, there were 293; scholars in the Sunday Schools, 710; officers and teachers, 78; women in Sunday School Libraries, 1,623.

Board of Education.
—TUESDAY, MAY 9.

The Board met at 8 o'clock.
PRESIDENT.—Messrs. Shepard (Chairman), Newbery, Johnson, Tennant, Tracy, A. Diamond, Yeomans, Doctor, Wensley, Will, Northcott, Brier.

THE CENTENNIAL.
OPENING DAY.
The Dedication Prayer.

The Musical Programme.
SPEECH OF THE PRESIDENT.

Bell Ringing, Cannon Firing, and Flag Raising.
A BIG TIME GENERALLY.

PHILADELPHIA, May 10.
The day opened with threatening skies, but at 10 o'clock the weather cleared and the sun shone brightly.

The ceremony opened at 10 o'clock, and was a most magnificent affair. The grounds were filled with people, and the air was filled with the music of the bands.

The President, Mr. Grant, presided over the ceremony. He made a most interesting speech, and his words were received with great applause.

The musical programme was most excellent. The bands played with great skill, and the voices of the chorists were heard to great advantage.

The flag raising was a most impressive sight. The flag was hoisted to the top of the pole, and the music of the national anthem was played.

The cannon firing was most brilliant. The guns were fired in rapid succession, and the sound was heard throughout the grounds.

The day was a most successful one. The ceremony was well attended, and the people were most interested in the proceedings.

The President's speech was most interesting. He spoke of the great achievements of the past, and of the hopes for the future.

A Victim to Modern Inventions.

CONTINUED.

I again threw myself back on the bed

large dress and the curtains stood on

my forehead as I thought of the awful

midnight had got into. Sleep was now

to be expected, and I longed for a glimpse

of light. If those confounded shutters had

not been closed there would have been

light. Then I made up my mind that I

would find my way to the window and try

and open the shutters. I got out of bed

and felt my way along the wall. The dark-

ness and stillness were dreadful. Sudden-

ly I heard a noise, and started; the next

instant I found it was the water running

into the bath. I now proceeded, still

feeling my way along the wall; I must

come to the window in time. "Ah, here it

is," I muttered as I felt the curtains; but

I was mistaken; it was the little bed

room. Again I journeyed onward, knock-

ing my shin against the chair, but at last

I exclaimed: "Here it is; this is the

door. It is a bow-window, and I passed through

it for the first time. I described my sensations. I

cried, "I scarcely know what I did. I

was the self-sufficient one. I had got

into the water, and the water came in a torrent

on my devoted head. I suppose my cries

were heeded, for the curtains for no one

appeared to have heard me, and I emerged

from the bath. I was shivering

from the cold, and I felt my way along the

door, looking after me. "Is there any

danger at the gate?" I cried.

"Danger what do you mean? There is

no danger."

"You are sure there are no knobs, or

handles, or anything of the sort?"

"No, no; nothing of the kind; you need

not be at all afraid. I wish, though,

you would alter your mind, and come

back to bed."

"I looked back, and as I did I saw

Jane opening the shutters; I took my

last look, and cried: "No; thank you, good-

bye!" and made the best of my way down

the drive. I cautiously passed the gate

with my foot, and with my hand on the

touching the handle. When I got on the

high road I breathed more freely.

"I was on the railway station. I just

managed to catch the early train, and in

the time reached London, and my mind

was full of the London, and my mind

my nose and belly, which I had kept up

vigorously all the time, and I almost drop-

ped into a chair which stood near me. I

saw and heard Harry, who was asking me

how I came there.

"I was going away," I replied. "I have

been most miserable all night; but this is

the climax; it has almost killed me. Pray

open the door, and I'll try and walk to my

room."

"Nonsense!" cried Harry; "come

along up stairs. I am very sorry you have

been so bothered, but I'll make it all

right."

"No; I shall never be happy here; you

must let me go. I am very much obliged to

you for your kind intentions; but what

other, and the other, and the other, and the

BELEVVILLE, SATURDAY, MAY 13.

Town and Vicinity.

PERSONAL.—W. J. Gating, Esq., who has been absent from town for some months, is again a resident of the "City of the Bay."
 TOWN COUNCIL.—A regular meeting of the Town Council will be held on Monday evening.
 Everybody and his wife are going to the Great Sale of Silver-ware, in the Victoria Buildings this evening.

THE CELLS.—Slowly but surely the number of tramps decreases. Last night only two of them sheltered in the cells.

COMMERCIAL WORK.—Sawing will be commenced for the season in Messrs. Jones & Vandusen's saw mill on Monday.

FAINTED.—Mrs. McDonald, wife of Mr. N. McDonald, of Thurlow, fainted on the market this morning. She was revived again without much difficulty.

COLD.—The weather is proving tolerably accurate, the weather yesterday and to-day having been unpleasantly cold, with north-west winds and cloudy skies.

DON'T forget the Great Sale of Silver-ware to-night, at 7:30.

STREET RAILWAY.—The horses and cars for use on the Belleville Street Railway are expected to arrive here on Wednesday next, by which time the road will be very nearly completed.

CONCERT.—The fifth annual concert in Belleville of the Mendelssohn Quintette Club will take place on Monday evening in the Town Hall, when a rare musical treat may be expected. Seats can be secured at Harrison's music store.

The Great Silver sale closes this evening. Avail yourself of the opportunity.

BASE BALL PLAY.—Mr. Wm. Bryce, of London, has just published a book containing the official rules of the Canadian Association of Base Ball playing. It is a pamphlet of over 60 pages, and will be useful to the players of base ball. Price 10 cents.

THE MARKET.—There was a moderately large attendance this morning, and prices of provisions remained about the same. Hay has advanced to \$15 to \$16 per ton, and oats have fallen to 45c to 46c per bushel.

GIFTS.—A number of wandering "Romansians" are in town, and seem to be doing a lively business in horse-draw, trading in which is their favorite occupation, in which generally they find much profit and to which they deal with them a corresponding amount of loss.

Gold Watches and Jewelry all being away at the Great Auction Sale every night.

CLOSE SEASON.—The close season for black bass in these waters closes on Monday and ends on the 15th of June. Fish of this description caught lately have been noticed by anglers as being unusually well forward, and spawning is likely to take place earlier than usual.

CHANCERY.—The spring sessions of the Court of Chancery will commence here on Monday before the Hon. Vice-Chancellor. Profound. The docket is unusually heavy—there being 20 cases set down for hearing, some of which are likely to prove lengthy, and the sitting of the Court will therefore probably be prolonged.

BASE BALL.—This game has taken quite a hold upon the juvenile heart, and damaged fingers, bruised hands and various other accidents to the satisfactory playing of the game are plentiful as raspberries in July. The "Globe" club, of Belleville, and the "Silver Leaf" of Napier, among others, which have twice previously met with all the honors attaching to the game, the "Globe" club has just won victory here on the 24th.

SMALL ANOTHER CAPTURE.—Fishery Overseer Wilkins captured last night a speck with which a law breaker had been engaged in spearing pickerel, and a quantity of fish which the wielder of the spear had taken in this manner; but the delinquent fished the Inspector caught the spear and carried it. The close season ends on Monday and Mr. Wilkins will after that time be given a chance to sleep at night, such as he has not enjoyed for two weeks past. The river here has been well guarded, considering that the Overseer has had no assistance except from the police.

CHERRY.—Buyers have not yet commenced to operate in this section, owing to the unsettled condition of the English market which has declined 2s per cwt. within the last two days. This is a very unfavorable turn, which was scarcely anticipated, and has a depressing effect on operators. At the same date last year, the value was 77s per cwt., or 15s higher than the rate now prevalent. In other words, the price per pound in Liverpool was 12-14 cts. per pound, against 12 cts. at present. There is still reason to hope, however, that the price this year will not reach so low a figure as it did last season, when it touched 47s on September 18th or 19th cts. per pound.

A PANIC AT CONSTANTINOPLE.

Plotting Overthrow of the Sultan.
 LOW CLASSES ARMING.
 Danger of General Massacre.
 Bulgarian Insurrection Spreading.
 RUSSIA'S PROPOSITION.

LONDON, May 12.—A correspondent of the Times telegraphs as follows from Constantinople: A general panic prevails here. The low classes of Mohammedans are purchasing daggers and revolvers with money, supplied by persons who are plotting the overthrow of the Sultan and the Government, and the Mohammedan insurrection is spreading. Mohammedans are threatening the Greeks and Armenians holding them to prepare for immediate death. Travellers are leaving on horseback, and European residents are leaving their families. The presence of a European squadron and organization of volunteer European militia can alone allay the alarm.

Bulgarian Insurrection is extending, disorders are apprehended at Rusek. The Times Vienna despatch says: The Ottoman government has not been ordered to the Mediterranean. Germany will await the result of the inquiry into the Salonica outrage.

The Times Vienna despatch reports that Russia has proposed that the powers send delegates to Turkey, to superintend the execution of reforms and that in order to show respect to Ottoman Sovereignty the Sultan should be allowed to appoint delegates from all of the persons proposed by the powers. It said that Count Andriani is not averse to a mixed Turkish and European Commission.

The Times London despatch says: The Russian government has proposed that the powers send delegates to Turkey, to superintend the execution of reforms and that in order to show respect to Ottoman Sovereignty the Sultan should be allowed to appoint delegates from all of the persons proposed by the powers. It said that Count Andriani is not averse to a mixed Turkish and European Commission.

Daily Intelligencer.

Belleville, Tuesday, May 16.

Town and Vicinity.

STATION.—There were six trains and one passenger in the cells last night—a pretty good crop for this time of year.

COMMENDABLE.—The Town Council last night, on petition of Col. Brown, granted \$100 to assist the men of the 49th in entertaining their guests from Oswego on the 24th.

PRATISING.—The select night of the 4th have been practising daily for their match with the Oswego team on the 24th. The weather has been highly unfavorable, and the scores correspondingly low.

THE CARTERS.—A By-law which provides for the regulation of carters in town was last night passed by the Council. Such a measure has long been needed, and its effects will be beneficial.

EMIGRANTS.—Five cars of emigrants and two of baggage and steamers (Oswego, left Montreal by special train at 10:30 this morning. They should pass here about 7 o'clock this evening.

BAPTIST CHURCH.—The Rev. Mr. Richardson, of Port Hope, will preach at the Baptist Church this evening at 7:30. As this is the second anniversary of this church, we hope a large congregation will be present.

ALBERT COLLIER.—The splendid new Dining Hall at Albert College will be opened with a dinner on Friday evening next. Several addresses will be delivered by local gentlemen of repute, and the occasion promises to be a very agreeable one.

SOMETHING FOR FOXBORO.—We learn from the Oswego *Palladium* that our neighboring village of Foxboro is to be surrounded with "church-going bells." A small bell from Seneca Falls in the N. T. dock for the Canadian village.

NOT YET FOUND.—The body of Harry Rankins, drowned on Friday last, has not yet been found, though an almost constant search has been made for it, every likely point in the river and harbor having been dragged, but in vain.

TEPISCOLEANS.—No. 2 Home Hotel will hold an Assembly in the Ontario Hall on the night of the 24th, and No. 3 Home Hotel and Ladder Company will give an entertainment of a similar description in the Town Hall on the same night.

BEVELLERS AND NORTH HASTINGS RAILWAY COMPANY.—This Company is to meet to-morrow for the purpose of organization, after which probably work will be carried on vigorously. Mr. Pardee, the chief promoter of the enterprise, is expected to-night.

GETTING PERMISSION TO INVADE CANADA.—The Oswego *Palladium* says in its issue of Saturday:—"Lieut. Col. Houghton is in correspondence with the proper authorities in Washington to obtain permission to carry arms on foreign soil, as a necessary prerequisite to the rifle match in Belleville."

HORSE STOLEN.—John Morrison telegraphed the Chief of Police yesterday from Rollin to be on the look out for a small grey horse with a white star in his forehead, which had been stolen from him on the night previous. The police have been on the alert, but the missing quadruped has not yet been seen.

QUINETTE CLUB.—The Mendelssohn Quintette Club gave one of their delightful concerts in the Town Hall last night before a large audience. Their performance bore out all the criticisms of our contemporaries, and it would therefore be waste of space to review the programme, every item of which was a gem. The Club are great favorites in Belleville, and they are returning appreciate this town, for they are always greeted with generous patronage and enthusiastic appreciation.

PERSONAL.—Mr. J. E. McDougall, who has been for some time past engaged as telegraph operator on the Grand Trunk at the Belleville Station, during which time he has made many friends, both at and affable and in town, through his high position in manner, has been left to take a high position on the Intercolonial Railway. We congratulate Mr. McDougall on this promotion, and hope that he may continue to progress in his occupation, which we have little doubt will be the case, as we have a record as railway man is most creditable.

The Assessment of 1876.

The Assessors returned their rolls to the

Town Clerk yesterday afternoon, and the

exhibit which they make is *prima facie*

anything but gratifying. They report a de-

crease on the total assessment of \$20,235,

and in population of 33,000 last year.

That they do this in the face of the fact

that buildings to the value of \$301,700

were erected in town last year, is an evi-

dence that a different valuation has been

placed upon real property, and that per-

sonal property and income have been

largely reduced, as we shall presently see.

As to the population, it is evident that

the enumeration has not been thorough

as it taken by regular census enumerators

as the rolls themselves bear evidence.

Last season a very careful enumeration

was made, but this time special instructions

were given, and the collection of statistics

has been performed in the manner usual

with assessors. Two years ago, when

the population of the town was stated at many hundreds

less than the truth, and the matter was referred

back to the assessors, who went over their

work again and made a much more correct

statement than their original one. This

time the same has happened this year seems

plain from these facts. If Bradford, with

a population of 9,400 in 1875, is returned

as returned for Belleville, is increased to

only \$3,213,410, or in round numbers

\$600,000 less than even the reduced rate

stated here this year. Guelph, with 9,017

population, is returned at \$2,102,160; St. Catharines, whose population is

returned at \$2,870, is assessed at \$4,409,

and so on, every town in the Province showing a smaller valuation of

property per head of population than does

Belleville—according to our Assessors.

The following are the returns made by

the Assessors:—

MURPHY WARD.—Real property, \$575,

185; personal property, \$6,700; taxable

income, \$1,500; non-resident, \$18,870; aggregate value, \$60,000; population, 1,302;

status labor, 4; dogs, 17; horses, 2;

cats, 2; dogs, 1; pigs, 1; horses, 99.

COLEMAN WARD.—Real property, \$351,

715; personal property, \$2,500; taxable

income, \$1,500; non-resident, \$2,145; aggregate value, \$53,730; population, 1,391;

dogs, 49; cattle, 74; sheep, 2; cats, 18; horses, 56.

FOSTER WARD.—Real property, \$268,

500; personal property, \$10,100; taxable

income, \$900; non-resident, \$4,075; aggregate value, \$29,470; population, 1,400;

dogs, 34; cattle, 37; horses, 6; horses, 32.

SAMSON WARD.—Real property, \$312,

200; personal property, \$25,000; taxable

income, \$6,500; aggregate value, \$54,300; population, 1,101; status labor, 30;

dogs, 42; cattle, 37; dogs, 10; horses, 107.

KETCHUM WARD.—Real property, \$942,

000; personal property, \$51,500; taxable

income, \$34,400; non-resident, \$900; aggregate value, \$108,000; population, 1,302;

status labor, 17; dogs, 97; cattle, 32; dogs, 7; horses, 12.

BALDWIN WARD.—Real property, \$555,

025; personal property, \$5,800; taxable

income, \$1,300; non-resident, \$5,615; aggregate value, \$60,000; population, 1,410;

status labor, 26; dogs, 52; cattle, 45; dogs, 12; horses, 62.

BLECKER WARD.—Real property, \$394,

900; personal property, \$8,800; taxable

Salonica musters 31 guns and 12,700 men, and

the German squadron is 50 guns and 3,000

men.

The *New Constantinople* correspondent re-

ports that the Sultan has contributed \$750,000

from his private treasury for payment of officials.

The *Times*' correspondent at Constantinople

telegraphs that by changes made in

abolition of a demonstration of the Sultan's

great revolution has been accomplished. This

is the first instance since the time of the Janis-

aries of the Sultan's yielding to popular pres-

sure. The *Sofas* have become a power in the

State.

The *Daily News* despatch from Constantinople

says the *Sofas* profess friendly senti-

ments towards the Sultan. They insisted on

the establishment of a National Council, and

on the appointment of Midhat Pasha to be

Grand Vizier, only agreeing to accept the

LONDON, May 16.—The *Manchester Guardian*

says the London correspondence says the

release of the Fenian prisoners will be presented to

Mr. Disraeli on Wednesday. It is the general ex-

pectation among the Irish members that al-

though the matter will not come before the

House, it will do something towards

meeting the petitioner's prayer.

CINCINNATI, O., May 16.—On Sunday eight

children, whose ages ranged from eight to

fifteen years, got into a leaky skiff in the

Ohio river a short distance from Vevay, Ind.,

and started out for a ride. When in the

middle of the river they discovered that the

skiff was filling and shrieked for help. The

skiff sank and the children were in the water.

A gentleman on the Kentucky shore jumped into a small boat

and attempted to rescue the children, but before

he could reach them the boat had sunk, and all

five of the children were drowned. One of the

three rescued was so badly frightened that

it is feared he will not recover.

LONDON, May 16.—Advices from Saloni-

ca say the total number of arrests in connection

with the late disturbances has been 34. A pre-

liminary inquiry has commenced and excite-

ment in the town is gradually subsiding.

The *Financial* says practically there is no

market for money on the Stock Exchange.

The *Post* states that Prince Alexander

of Anspers has died from the effects of a

wound he received in his duel at Prague with

Count Kalouster. The latter has been arrested

and will be sent to Court.

BELLEVILLE, WEDNESDAY, MAY 17.

Town and Vicinity.

THE CURE.—Only one poor tramp lodged in the Station last night.

ARRIVED.—That bell which was mentioned in our columns yesterday as being destined for Foxboro arrived per the *Kincardine*. It was entered inwards at the Custom House, being consigned to Mr. Wm. Scott.

TEMPERARY LANE.—It will be seen by advertisement that the *Thames*, of the Temperance Line, will leave Quebec for London, on Saturday, the 20th inst. For passage apply to the Agent for Belleville, W. A. Shepard, *Intelligencer* office.

THE SHIRE HALL.—Tenders are asked for the enlargement of the Shire Hall, according to plans and specifications prepared by Mr. John Forin, architect. Plans and specifications can be seen at the office of the architect after-noon, and tenders will be received up to noon on the 6th of June.

THE RIFLE MATCH.—The Canadian Government have authorized the purchase of Customs here, to permit the Oswego Riflemen to land at Belleville on the Queen's Birthday, with their arms, for the purpose of the Rifle Match. The usual Customs regulations for the return of the arms after the match, will have to be complied with.

THE MARKET.—The market bulls, other than those from butchers' stalls, for the evening year, will be required to-morrow by public tender, subject to the approval of the Market Committee. Hereafter the fees in question have been disposed of by public auction, and the market will be held during this year will be looked for with interest, as affording a comparison between the two modes of farming the market tolls. Last year's rental was \$4,875.

ACCIDENT.—Mr. Thomas Earle, millwright, whilst engaged at work in the *Intelligencer* building this morning met with a serious accident. An assistant on a scaffold, trying to raise the ceiling, when the lead of the axe which he was using fell off. It struck the ceiling, and glancing there struck Mr. Earle, who stood near, on the shoulder, inflicting a deep flesh wound. Mr. Wilson was at once summoned, and dressed the wound, which will lay Mr. Earle up for several days.

THE BELLEVILLE TEAM.—The Oswego *Times* of the 16th inst.—"Adjutant Thompson has received official notice of the team to compete with the Forty-eighth at Belleville on the twenty-fourth, as follows:—Color-Sergeant, D. Cunningham, Hospital Sergeant, John Bennett, Corporal, Wm. H. Hilbert, Private James Marshall, Private Henry Tammage, Private Walter Marshall, Substituted, Sergeant Lewis Marshall." We understand that Private Marshall has been chosen Captain of the team.

ASSESSMENT.—The assessment per head of the population in each of the cities and towns named below, as follows:—Kingston, \$3.00; St. Catharines, \$3.42; Brantford, \$3.23; Guelph, \$3.42; Stratford, \$2.92; Belleville, \$4.07. These are all the places in the Province where population exceeds 7,000 and less than 14,000. Therefore, if the assessment has returned the population correctly in each instance, Belleville is wealthier than any other town or city with which it can fairly be compared in size.

CHICKEN.—At last there is a prospect of the revival of the old *Clubs* Club. One of the former officers has returned to town, and two others whom he recommends as good players accompany him, which reinforcement will materially add to the strength of the material available. A meeting for the purpose of organization is to be held in Hanby's on Friday evening at 8 o'clock, when we hope to hear of a large attendance of cricketers and the revival of the old *Clubs* for 1876.

A ROW.—There was a great row on Pine Street, near its northern end, yesterday afternoon. The *Row* was a *Row* between Mrs. Moss and Miss Goss. Mrs. Moss, a well-known character, the latter of whom is the inmate of the "ranch" kept by the former, had for some days been angry on account of a scurrilous publication that had been posted on the door of her dwelling. This offence they charged upon Mrs. Fowler, a neighbor. So when Mrs. Fowler got drunk yesterday they sallied out to wreak their vengeance on Fowler. They began by smashing the windows of his house, then cut his hands badly, and in doing so, then one of them threw a brick through the window, and Mrs. Moss, who was in the house, when Mr. Fowler, who is an old man, came out, they or one of them struck him with a stick and pelted him with missiles. A great hubbub was made, and the row was in appearance.

It was stated by the police, who were called by the police refusing to go, was placed in a wagon and driven to the Police Station.

tion and lodged in the cells, but she was released from duress via later in the evening, her own recollections being preserved. The other woman was not taken last night.

PHILADELPHIA CORRESPONDENCE.—We have received the service of a gentleman who is a native of this city, and who was a resident of Philadelphia, as our correspondent during the continuance of the Centennial Exhibition. His first weekly letter, which will be found in the *Intelligencer*, is published in another column.

NORTH HASTINGS RAILWAY COMPANY.—The meeting advertised to be held on the 17th inst., for the purpose of organizing and electing officers of the above Company, has been postponed, the meeting not having been called in accordance with the provisions of the Statutes. "Another notice" will be given at once, and the meeting for organizing held at as early a date as possible.

FRANCE EDWARD ELECTION.—The Toronto papers report that the petition against the return of Mr. Gideon Striker to the Ontario Assembly for Prince Edward County, before Judge Burton and Vice-Chancellor Blake yesterday, was dismissed without costs as regards the corrupt practices and retributory charges. The petition is terminated with the costs of the attorney.

BORDWILL'S EXHIBITION.—This Exhibition is advertised to show in Ontario Hall during the latter part of this week. The *Ottawa Free Press* thus refers to the exhibition: "This excellent panorama was exhibited last night at the Risk House Hall of one of the largest audiences ever assembled there. The result was that the entertainment fully justified the large patronage. The exhibition is much more than an ordinary panorama. The whole paintings are the work of a series of artists, and no mere dashing get up to humbug the public."

* * * The Franco-German War representations at the exhibition, was the greatest pleasure to the audience. The Montreal *Daily Witness* speaks of the exhibition as "the most interesting and instructive of the numerous exhibitions, the hall being quite filled, and the interest in the exhibition, as each picture attracted the attention of the many thousands. The views of Dublin are very fine. There are splendid views of Paris and London, and the exhibition, which will be open again to night and to-morrow, was a most interesting and instructive one, and the exhibition, which will be open again to night and to-morrow, was a most interesting and instructive one."

Court of Chancery.

DEAN A. COOKE.—The above case was dismissed with costs without hearing the evidence.

WEDNESDAY, May 17.

McAVILLA vs. McAVILLA.—Mr. Fitzgerald, Q.C., for plaintiff; Mr. Arnold, Q.C., for defendant. Bill filed to set aside a conveyance made by father to son. Bill dismissed with costs.

NICHOLS vs. STEVENSON.—Mr. Clute and Mr. Gibson, for plaintiff; Mr. Fitzgerald, Q.C., for defendant. Bill to set aside a power of sale on a mortgage, and for redemption. Trial going on at time of going to press.

Police Court.

(Before A. Diamond, P. M.)

WEDNESDAY, May 17.

HAMILTON BIRD.—Charles Wm. Dwyer, with using abusive language towards him. The case found.

BRICK AND DISORDERLY.

Mrs. Caroline Moss was accused by Constable Downs of being drunk and disorderly.

Constable Downs testified that he arrested her for being drunk and disorderly, and that when she was taken to the police station, she was hammering Mr. Fowler with an oyster shell.

The defendant denied emphatically being drunk, but said she broke Fowler's windows on account of a blackboard placed which he put on her door.

Mr. W. Fowler testified that the defendant came to his house yesterday afternoon, and tried to get into the door, when he told her to get out, and she would be sorry to see the window. To Mr. Holden, I did not put up the blackboard, nor did I know who did it, but saw the blackboard on the door, and was about 100 feet from the door when the row was going on.

Mrs. Moss stated that the complaint came into her house and tried to kiss her and pull her around, and she would be sorry to see the window. To Mr. Holden, I did not put up the blackboard, nor did I know who did it, but saw the blackboard on the door, and was about 100 feet from the door when the row was going on.

John Wallace being sworn, stated that the defendant came to his house yesterday afternoon, and tried to get into the door, when he told her to get out, and she would be sorry to see the window. To Mr. Holden, I did not put up the blackboard, nor did I know who did it, but saw the blackboard on the door, and was about 100 feet from the door when the row was going on.

The defendant was fined \$5 and \$2 damages and costs for breaking the window and \$40 costs for the assault.

Marine Notes.

CREAKED.—Schoner *Kail*, (Oswego, 165; 000 feet lumber)—Baker, Jones & Co.

Schooner *Oswego*, 9,780 bushels—Squire & Whittier.

The water in the harbor is still rising slowly.

SCHOONER NELLA P.—Downey is loading grain at Eddy's storehouse.

It is reported that the *Clubs* Club, of the U. S. District Court at Detroit, holds that while a British vessel may not carry freight between two ports, it may carry passengers.

The customs officials have held differently, but possibly they know more about law than Judge Brown.

FROM QUEBEC.

TWO LADS SEVERELY HURT.

MAN DROWNED.

Graves Explored by the Flood.

QUEBEC, May 17.—A man named Gagnon, and a lad who accompanied him, were very severely hurt, by the breaking of a small boat, from the hull of an old ship which was burned on the Beauport flat.

A young man named Duchesneau, was drowned by the upsetting of a row in which he was engaged, owing to the influence of St. Charles River. His companions were saved, and the boat was recovered under the influence of St. Charles River.

Complaints are made that a number of the graves in the St. Charles cemetery are completely exposed, owing to the action of a wave which, runs through the ground and whose waters lately have overflowed, washing the earth away.

TOLD OVER A COUNTER.

CONTRIBUTED.

"I think those tears were a relief. She wept to sleep, and awoke three hours after much refreshed. Strange to say, she asked for the bitterly rejected medicine, and never refused it again."

"By that time the disease had got too far ahead for drugs to overcome. I was anxious that some relative or friend should be moved, but she would not hear of it. Mrs. Barford and I were all the while waiting on her. One day when the old chamberlain was out, and she sat up in bed, apparently stronger than ordinary, she whispered to me, 'Mrs. Marbury, come close to the bedside, and promise faithfully never to reveal what I am about to tell you, so long as there is breath in my body. But I feel I cannot die unless I disburden my soul.'"

"I gave the required promise and a renovating draught at the same time."

"I was a lonely one," she then said, "with eyes of so dark a gray they might have passed for black, and a head of hair that was never surpassed. You see what it is now."

"I nodded, and Miss Childers went on."

"I was full of poetry and sentiment, and living in Byron and Moore and Keats, and with L. E. L., when I met at the house of the Dean the finest face and form that ever clothed a human soul, and from that spring-time morning Aubrey Wilton was mine."

"She drew her hand across her eyes. 'Ah! Mrs. Marbury, I had known him now as he rose from the sofa to be introduced to 'Miss Childers, the young poetess,' and I almost felt against the blushes rise to my cheeks as I blundered forth a disclaimer of the compliments paid to me. I was not quite eighteen, and here my poetic honors somewhat haughtily. But I think I was most overpowered by the unexpected presentation to the least ideal of my imaginative dream. There was not an effeminate line in his face or figure, yet Aubrey Wilton was superlatively beautiful, with a skin whiter than my own, black eyes which pierced me through, and clustering curls as jetty and lustrous as my own."

"There was a long pause before she resumed."

"My mother was alive then, and we met only twice, and I was not sure to see her there. He had been abroad, and I had been back to take possession of my father's estate on the death of his eldest brother. I am afraid this property was in my mother's hands, and I was not myself. I absolutely worshipped the man and valued the gold as dowry. Whether to draw me or make himself agreeable, Aubrey Wilton always led conversation with me into the enchanted realms of poetry, and I luckless willing that I was allowed, little dreaming it was but the reverse of love. I awoke one day to the feeling in all its strength and bitterness."

"Recollection seemed to overpower her; the white hand went down on the pillow. Mrs. Barford came back; she was followed by the doctor, who forbade excitement and a week or so elapsed before I heard the remainder of 'Miss Childers' confession, which had many breaks and pauses."

"Mrs. Marbury began, 'In my dreams last night I saw my mother, and she beckoned me. I must say quickly what I have to reveal, but, oh, I think not more harshly of me than you can help.'"

"I said I woke from my dream—the shock was a rude one. Aubrey Wilton asked me to write some verses in an album he was about to present to his betrothed. I was too much stunned either to faint or scream. I think he took my silence for ecstacy. Heaven help me! I was feeling as if the universe had collapsed. I tried to make my thanks, and my confession, which had many breaks and pauses."

BELLEVILLE, FRIDAY, MAY 19.

Town and Vicinity.

PERSONAL—Hon. L. H. Holton, M. P., is in town.

THE CELLS—Two tramps and no prisoners slept in the cells last night. One of them had been driven but both were allowed to go this morning.

CHICKEN—There is evidently a revival of cricket amongst the rising generation, many of whom were engaged in practice on the hospital and other vacant property on the hill last night.

ROBERT AT MILTONS—On the night of the 17th inst., the Carrage Shop of N. S. Appleby, M. P. P., was broken into and a quantity of woodwork, tools taken belonging to Mr. Adam Eaton.

PERSONAL—Miss Macpherson addressed an audience in Wickham Hall, Brantford, on Wednesday evening, giving some account of her work among the London Street Arabs.

MEETING TO-NIGHT—A meeting of cricketers for the purpose of reorganizing the Belleville Cricket Club for the season, will be held to-night at 8 o'clock at Hambley's. Many of the old veterans members have signified their intention to come forward, and we hope to see them sustained by a large attendance of those who have been members of the Club in late days.

BOAT ARREST—Some evil disposed person last night or this morning set a boat adrift, which lay across some distance up stream from the lower bridge. The boat, on its return down the river, was one of the piers of the lower bridge and remained fast there. It was secured this morning by the owners, who had a good deal of difficulty in doing so.

RIGHT—The *Owaga Palladium* says: "Even if our readers should be beaten at Belleville there will be no more eggs for Belleville sent away 6,410 dozen of eggs the other day." Right Mr. Pall and as said eggs have already been rejected by the police ladies, they will not be any occasion for cackling, no matter to which team the time and fortune's wheel may award the biggest score.

THE WEATHER—The unseasonable cold has departed, and warm, genial May weather is past taken this week. Yesterday was most enjoyable, and to-day has been equally pleasant. Little sort of wonderful has been the effect of the higher temperature of these two days. Those which had been in bud for some time are now showing their young leaves, which have unfolded as if at the touch of a magician's wand, and vegetation generally shows an equally astonishing rate of progress.

COURT TO BE BUILT—That old worn-out old Victoria Court Street, which extends from the junction with the main Street, to Wharf Street, ought to be buried at once beneath a new board walk. The walk in question has done excellent service, but the uneven surface over which the pedestrian tripe and stumble, unless very careful, is a disgrace to the town. In addition, it is the first object which greets the vision of strangers landing from steamboats, and must give them an unfavorable impression of our beautiful town. We hope that the Street Committee will take action at once, as this very sidewalk has been an eye sore and a stumbling block for years.

THE OUTRAGE IN NAPANE—The *Express* gives the following particulars of the brutal outrage attempted to be perpetrated in Napane: "At the preliminary examination of the culprit, held on Monday afternoon, the little girl's story, which was given in a very clear manner, went to show that the man who gives his name as James Toner, but who has several other aliases such as 'Tommy,' 'Tommy,' &c., met her on her way home, she having a child with her and a pail on her head, and under the pretence of getting her some candy, led her away until he got her to a barn belonging to Mr. J. C. Hoffman, on the Belleville road, and there attempted to outrage her by committing the vilest act of design, thinking he would escape, but like murder his name was sure to come to light. Having satisfied himself the brute then went off and led the child to find her home as best she could, but fortunately she came along and the little girl was taken up and driven to town, over a mile distant. Having been confronted with the prisoner in a little room of the town hall, where the trial took place, and where a number of other men were brought in, she alone picked out 'Tommy' as the one who took her away. The prisoner was committed for trial, and it is hoped, that a very severe punishment will be meted out to him. He was flung in Belleville about three years ago for the same offence, which he did not seem to cure him, and it is now to be decided that in addition to the usual term, he shall be kept in the cells for a year, and the public feeling was so strong against him that it was hard work to restrain them.

from meeting out to him summary justice." Of course Irish law in a country like Canada, cannot be applied, but if there ever was a case where that method of obtaining justice was justifiable, the one at Napane is in point. It is to be hoped no maddening assembly of the kind will be permitted, and the extreme penalty of the law being meted out to this ruffian.

ALBERT COLLIER—Therese Dining Room will be inaugurated this evening with a "feast of reason, and a flow of oratory" comforts, the reception room and library will be thrown open, and a pleasant evening's amusement may be anticipated.

THE FREEMEN—The annual parade of the five brigades of this town will take place at 2 o'clock, p. m., on the 24th. The Fire Brigade always makes a good display, and no doubt the various companies will make a special effort this season, in order to favorably impress the visitors who will be with us from Oswego. It is understood that the route will be as usual.

THE MARKET—The Market Committee met last night for the purpose of examining and deciding upon the tenders for the market fees, other than the takers arising from the route of butchers' stalls for the year ending June 1st, 1877. The following tenders were presented: A. L. Vandervoort, \$1,829; Simon Sheehan, \$1,850; A. Grillo, \$1,750; P. P. Lynch, \$1,700; Tom McDonald, \$1,900; P. R. Lingham, \$1,910; W. H. Scholtes, \$2,000; Geo. W. Leavens, \$1,875. The tender of Mr. Scholtes, which was the highest, was not awarded to him. The sum to be paid during the coming year is an advance of \$125 on the rental of the year previous, which was \$1,875. Mr. Scholtes' sureties are Messrs. Thos. Wills and G. D. Dickson.

England on the Berlin Conference.

LONDON, May 19.—In the House of Lords last night the Earl of Derby states that Turkey had left nothing undone to secure the punishment of the Salonica murders. He said it was true the British squadron had been ordered to Besika Bay in consequence of a communication from the British Ambassador at Constantinople. According to the latest accounts the excitement which undoubtedly existed among the Mohammedans had been much allayed. Lord Derby hoped the precautions which had been taken would prove unnecessary.

Rome, May 19.—Caribaldi, on account of his health, recently resigned his seat in the Chamber of Deputies, but afterwards withdrew his resignation.

Madrid, May 19.—The *Imparcial* says Queen Christina will arrive here next Monday.

LONDON, May 19.—The *Standard*'s Vienna despatch says that the Herzegovinian have declared through their representatives, at Cetinje, that they will not accept the rumored armistice because it would give the Turks an opportunity to bring up reinforcements.

The German squadron will not be ready to sail for Turkey until three weeks from to-day.

The *Daily Telegraph*'s correspondent at Berlin, says he is in a position to state upon unquestionable authority that the German and Russian Ambassadors in London have telegraphed their Governments that England does not assent to the propositions which resulted from the Berlin Conference.

NEW YORK, May 19.—Peter Cooper says he will decline the Indianapolis nomination.

A despatch from Cheyenne says: A party of forty men attempted to reach the Black Hills, led by Billy Patterson, a well-known plainsman. They were forced to return. Their march both ways was a series of fights; they lost one man and killed two Indians.

THE CELLS—Five wanderers tenanted the cells last night. No arrests were made during the twenty-four hours ending at 8 a. m.

SAW LOGS—A number of saw logs of last year's cut, which had been "hung up," are now arriving at the boom at the harbor's mouth.

THE MARKET—The weather this morning being rather threatening, the attendance on the market was considerably smaller than usual. Prices ruled very high, in consequence.

COMING—The *Oswego Palladium* says: "It is reported that the steam barge *Ellenwood* will make an excursion to Belleville, starting from here on Tuesday night, and the fare will be placed at such a figure that all who desire can go at a low rate."

CRICKET—A meeting of cricketers was called for last night to reorganize the Belleville Cricket Club for the season. By the request of several parties, it was decided to attend last night's meeting, an adjournment was made until Tuesday night.

STREET RAILWAY—The work on the Street Railway is rapidly approaching completion. Gravel is being laid on the track and the roller is being used. Several horses and some of the cars have arrived, and the road will be in complete running order by the 24th.

AN INTERESTING TRAMP—A tramp hotel entered the kitchen of Dr. Lister's residence about half-past seven o'clock this morning, and demanded breakfast. The servant girl called for assistance, and the tramp made off, determined, on compulsion, to take his breakfast somewhere else.

"DANIEL'S HAND"—Meetings to-morrow evening and evening. During the hot weather the Sunday afternoon meeting will be discontinued. Regular services every Wednesday evening at 8 p. m., and Sunday evening after the closing of the different churches. Hall over Mr. Nathan Jones' store.

THE GREAT AUCTION SALE—Our readers will do well to remember that to-night is the last opportunity they will have of purchasing cheap. Flatware, gold watches, jewelry etc. The remains of the stock will be cleared out to-night at any price, as the agent is compelled to leave town on Monday.

THE HIBERNIC—This panorama was exhibited in the Ontario Hall last night, before a large audience. The scenery of Ireland is well painted, and the acting of the members of the company gave satisfaction. The panorama of the Franco-German war was not shown last night, but it will be to-night and again on Monday night.

METROPOLITAN HALL—The famous comedian Sothern will afford Belleville play-goers a treat in the Metropolitan Hall on Monday night, when he will give his great impersonation of *Lord Dunsany*. An excellent company supports Mr. Sothern, and that the entertainment will be satisfactory there is very good reason to anticipate.

THE RYLE MATCH—The team which is to shoot in the international match on the 24th was to be out for practice this morning and afternoon, and will close practice on Monday, when a full day will be put in at the butts. So far as we can learn the scores are fair, though nothing extraordinary. The first shot in the match will be fired by Mrs. Col. Campbell.

THE "SOUTHERN BELLE"—This steamer formerly the *Bathurst Castle*, has been handsomely fitted out by her owners, Messrs D. L. Keith, J. Bryant and P. and Niagara, in connection with the Canada Southern Railway, during the season. The *Mail*, in the course of a long notice of this boat, says: "On going aboard of this steamer the visitor cannot but be surprised at the amount of room she has to place at the disposal of passengers. On the after part of the main deck is a spacious awning to protect passengers from rain or the too fierce rays of the sun, and enjoying the lake breeze. On this deck there is ample room for several sets of quadrilles without crowding upon the space likely to be occupied by those who do not desire to be disturbed by the music."

Yesterday an old man named Wm. Goodenough left his non-in-law's house in the morning, and was found dead when they went to him to his death with a tree he had felled lying on him. The tree of a cypress was used for the purpose and the man had been lying on it for some time. Death must have been instantaneous.

ST. JOHN'S—A child of Mr. Pringle's section foreman, Grand Trunk Railway, of this place, aged eighteen months, fell into a well this afternoon and was drowned.

LONDON May 19.—Miss Katie Hamilton, who was seriously hurt by being thrown, castly to a northward, generally warmer, partly cloudy weather, and light local rain.

THE EASTERN QUESTION.

ENGLAND'S POSITION!

Austria not to Intervene.

Turkey will Reject the Proposals.

LONDON, May 20.—The correspondent of the Times at Paris says the explanation given to the refusal of England to accede to the Berlin programme is that the British Government considered if an armistice was stipulated, in the name of the belligerents, they would thereby be treated as belligerents. England raised a succession of objections to measures considered by the Conference.

The same correspondent asserts that Count Andrassy, before going to Berlin, pledged himself to Hungary not to approve of military intervention or join in any scheme menacing the integrity or independence of Turkey. A despatch from the correspondent of the Daily Telegraph, at Constantinople, says: "I have good authority to state that Turkey will reject the Berlin proposals."

SECRET SOCIETY'S TROUBLES.

A GUILTY POSTMASTER.

GALVESTON, TEXAS, May 20.—Another daring stage robbery has occurred on the El Paso line. One stage and two hacks full of passengers were stopped by three highwaymen on the night train, eight miles west of Dallas. Before finishing their work another hack full of passengers came up. On being ordered to stop, the driver put the whip to the horses and escaped. Several shots were fired by the robbers and passengers, but no one was hurt. So soon as the robbers secured the booty, which it is reported amounted to several thousand dollars, they shot their own horses, mounted the stage horses and rode off towards the Indian Nation. From the descriptions given it is supposed they are the James Boys. Their conduct is arrested, and their capture is considered certain.

ST. LOUIS, May 20.—Hugh F. Summers, one of the jurors in the McGuffey trial, who was charged with having prejudiced the case, has filed a suit against the *Globe-Democrat* for various articles published in that paper defaming his character, for which he claims \$50,000 damages.

NEW YORK, May 20.—B. B. Rogers, cashier in the Fulton Bank, Brooklyn, who started off with \$25,000 of the bank's money to establish a stock farm in Tennessee, yesterday withdrew his suit of "not guilty" and pleaded "guilty." His friends intend to let him go to the Penitentiary and then work for him.

AT A MEETING OF CATHOLIC SOCIETIES last night to arrange for attendance at laying the corner stone of the new church of the Paulist Fathers, the absence of representatives of the various societies was noted. The Rev. Father Young explained that he had been compelled by Vice General Quinn to retract the invitation to that order. Several American Hierarchs who attended the meeting asked for the Vice General's reasons. Father Kearney replied that the Vice General has determined to deem the order beyond pale of the Church until it establishes chapels in connection with its meeting places. Like other Catholic bodies, and discards mysterious signs and pass-words.

Wm. H. Bushard, Postmaster at Florida, Orange County, charged with defrauding letters, was yesterday found guilty by the jury, with a recommendation to mercy.

RELLVILLE, TUESDAY, MAY 23.

OUR QUEEN.

The anniversary which will be celebrated to-morrow throughout the vast domain over which the army of Great Britain extends is one of the most glorious in the history of the foremost of nations afloat. Around this day cluster no memories of daring deeds or battles by sea or land. None of the glories of victory achieved amidst the crash of musketry, the roar of artillery, the flash of shrapnel, by the unconquerable British troops, was won upon this day. On it we commemorate none of the magnificent triumphs of those English "sea-dogs," who manned those fleets which every ocean, and whose record on the scroll of fame is above and beyond that of any other mariners, achieved in modern times. It is a day of peace, of a more peaceful celebration of to-morrow is of a more peaceful, mayhap of a more prosaic character; it is simply in honor of the birthday of a woman. That lady—for with it is truth the first lady in Christendom—is our beloved Queen Victoria. With no masculine attributes like her predecessor Queen Elizabeth; with no strong peculiarities which have distinguished the other great women of history; she stands in advance of them all. Her attributes are of the lovable, not of the striking character. As a daughter, as a wife, as a mother, as a Christian lady, as a just and steadfast ruler has her influence been felt, and the ways we are safe in saying, on the side of justice, of peace and of mercy. Through the constant exercise of these noble qualities our Queen has won her way to the hearts not alone of her own subjects, but to those of the world at large, by whom she is held in more general esteem than any other reigning monarch. There is not a British subject worthy of the name who does not love his Queen, but it is not to her that there are a few vipers who have endeavored to poison the pure and spotless character of our good Queen. This was especially true of the late Prince of Wales. Her Majesty accepted the proposed title of Empress of India. The title attempts have been but as clouds passing across the face of the sun, which shines with additional lustre when the veil which obscured its brightness for a moment had been withdrawn.

Though foreigners may admire and honor the character of our Queen, to the people of her vast dominions peculiarly belongs the pleasure of demonstrating their loyalty to the throne and their attachment to the person of the monarch. We see it stated, however, that in some of the old Virginian towns, whose love for the mother land has always been strong, the old spirit has been aroused, and that demonstrations in honor of our Queen will take place to-morrow; and an invitation to attend the Centennial Exhibition in Philadelphia has been tendered by Her Majesty. We, as faithful subjects, feel an additional pride in our glorious ruler owing to these evidences of her people's feeling towards her on the part of those who have not experienced the advantages of her benign and just rule, and that the time will be long in coming when such fraternal bonds will be broken.

When the sun rises in the far Orient to-morrow, the celebration of Queen Victoria's birthday will commence. The colonists of Singapore and Hong Kong will begin the rejoicing, and the harmonious notes of merry-making and gladness will float out across the water, and be echoed westward over the swelling billows. The settlers at the Straits will take up the joyful refrain. Following the lord of day in his merry course, the sounds of rejoicing will spread to India with its teeming millions, lately gladdened by the visit of the son of its ruler, to the Australian, New Zealand, and the South Sea Islands, and the gentlest rocks, richer than the mines of Golconda. Across the treacherous Indian seas, and over the colonies of Africa, Past Aden, the key of the Red Sea, the Cape of Good Hope, the Straits of Suez, the Mediterranean, Malta, the home of the once-illustrious Knights of St. John, and to the lonely rock of Gibraltar, where British power sits imperiously entrenched. Still, following the course of Euboea's chariot, over the British Isles—those link-bands of Europe, happy, free, and beautiful beyond all the continental countries, across the North Atlantic to the West Indies, and the South, and over our loyal dominions—the "true north" of which the poet has called the "true north" of all the glorious lands which drive under the mild rule of Victoria, and which glow in Britain's crown. In fact, the day will be that vast empire on which the sun never sets, and in many places wherein Britain have taken up their residence.

Canada will not fail of her usual enthusiastic celebration, nor will her loyal subjects, and around which tens of thousands of the stern British who gave up their all when to be loyal to the British monarchy entailed on them that great sacrifice, be short of their duty in the matter. No public demonstration will take place, but by the construction of tips—from those of the aged grandparents down to those of the tiny child who toddle the teachings of its parents, will try to the throne of grace the heartfelt prayer: "Long live the Queen."

ENGLAND'S NO GOVERNMENT.—Mr. Disraeli stated yesterday that England was unable to concur in the proposals of the Northern Powers for the pacification of Turkey. A Berlin dispatch says Count Andrassy's scheme will be to secure England's cooperation if possible.

THE BRIGADE-MAJORSHIP.

From the extract which we published a few days ago from the Kingston Daily News, it appears that Lieut.-Col. Worley has been appointed Brigade-Major of the 4th Battalion (Hastings Rifles) Canadian Volunteer Militia, will take place here to-morrow. Great interest has centered in this matter, from the fact that the company of the 48th Oregan, from which the selected man for the Nevada badge last fall at Cheesemond, beat in competition, composed of a like number of men from all the regiments in the State which chose to enter. The marksmen representing the 48th have also won honorable distinction in many a well-contested match, their record for the past four years having been second to that of no battalion team in the Dominion. With such proved expertise, it is not surprising that the company is certain to secure the result of which will be looked forward to with interest in Canada and in the State of New York.

The making of such a match was first suggested in these columns in April last. An Oregan contemporary—the *Palladium*—joined heartily in the proposal, and suggested this day the 48th, corner of the 4th and 5th streets, as the place for the match.

Prompt action was taken by the 48th in issuing a challenge, the conditions of which were at once in the most courteous manner, accepted by the challenged party, and the match was made.

The conditions of the contest are that two matches be shot between representatives of the military organizations in question, the first to be held on the 24th of July. The teams to consist of six men each. Seven shots each at 200, 500 and 600 yards. Military rifles in ordinary use only to be employed. The target, target and scoring. The stakes to be the honor of the corps and a suitable memento of the match.

The men to be bona fide members of the regiments, and the same men to compete in both matches. In his letter of acceptance, Adjutant Thompson, of the 48th, named the following men on behalf of his regiment: Sergeants J. S. Barton, L. L. Barnes, C. A. Barton, Privates A. W. E. and J. W. E. In his letter of acceptance, Adjutant Thompson, of the 48th, named the following men on behalf of his regiment: Sergeants J. S. Barton, L. L. Barnes, C. A. Barton, Privates A. W. E. and J. W. E.

The match will be begun at 10 o'clock a.m., the first shot being fired by Mrs. Colonel Campbell, and it is expected that the firing will be concluded by about 5 o'clock p.m. Seats will be provided for ladies. In the evening the victors will be entertained to a supper by the members of the 48th battalion Rifle Club.

Our hope is that the weather may prove highly propitious, and that no accident may interfere to prevent the best men from winning.

RAILWAY TRAFFIC.—The decrease in the ocean inward passenger traffic has had its effect upon the railway traffic. The passenger traffic has been greatly decreased in proportion, and is consequently derived from East-bound traffic. The Grand Trunk traffic shows a net increase for nineteen weeks of half year of \$200,000, after deducting the decrease of \$75,000 in passenger traffic, being an increase on freight traffic of \$275,000. In the face of the present universal depression, these figures are most satisfactory, and show conclusively that notwithstanding the sharp and "cutting" practices of our friends over the border, the Grand Trunk is able to hold its own against all comers.

The Mysteries of Editing.
The world at large, Henry Ward Beecher has said, does not understand the mysteries of newspapers; and, as in the watch of the press, the editor is the most important of the press, and the watchful fidelity of the publisher. Who pauses to think how much the pleasure of reading is derived from the skill and care of the printer's eye, and seldom sees the excellence of the work.

We feel the blunders of printing if they exist, but seldom see the excellence of the work. We feel the blunders of printing if they exist, but seldom see the excellence of the work. We feel the blunders of printing if they exist, but seldom see the excellence of the work.

A GREAT MATCH.—What was probably the most remarkable match on record, took place recently at Melbourne, Australia. The Macquarie and the Ulster Clubs met in bloodless combat, and took four Saturdays to finish out the match. The Ulster club was the victor on each occasion, and the Macquaries were compelled to give all the holdings, not having been given an opportunity of exhibiting their science with the bat at all. The Ulster club's score was 1,238, the highest individual score being 249, and the lowest being represented by the impressive "goose egg."

THE OUTLAW RUEL.—A Montreal telegraph says: "The notorious outlaw Louis Ruel, as reported last week, was some months ago secretly brought to England, Louis Point Amy, and there lodged as a lunatic. From a reliable source it is learned that an excellent common type, as he is called, is now being used to read the papers and act generally in an altered manner. He receives visitors daily, but is not allowed to receive any letters. It was deemed advisable to remove him farther away from this city, and consequently, he, on Saturday, went down to Quebec, but beyond keeping his station pretty closely, he is not to be disturbed by any other passengers. If he is dangerous to the public, he is a very mild type of lunacy indeed. His health, however, is stated to be broken, and he could, it is alleged, have claimed asylum with the medical authorities. Enquiries among all school-fellows lately have elicited nothing in regard to why he was sent to Canada, but it is hinted that he will assist abroad to have him returned now that he is a lunatic."

The International Rifle Match.

The rifle match which has been arranged between teams of picked marksmen representing on the one side the 48th regiment New York State National Guard, of Oswego, New York, and on the other, the 48th Battalion (Hastings Rifles) Canadian Volunteer Militia, will take place here to-morrow. Great interest has centered in this matter, from the fact that the company of the 48th Oregan, from which the selected man for the Nevada badge last fall at Cheesemond, beat in competition, composed of a like number of men from all the regiments in the State which chose to enter. The Mysteries of Editing.
The world at large, Henry Ward Beecher has said, does not understand the mysteries of newspapers; and, as in the watch of the press, the editor is the most important of the press, and the watchful fidelity of the publisher. Who pauses to think how much the pleasure of reading is derived from the skill and care of the printer's eye, and seldom sees the excellence of the work.

We feel the blunders of printing if they exist, but seldom see the excellence of the work. We feel the blunders of printing if they exist, but seldom see the excellence of the work. We feel the blunders of printing if they exist, but seldom see the excellence of the work.

A GREAT MATCH.—What was probably the most remarkable match on record, took place recently at Melbourne, Australia. The Macquarie and the Ulster Clubs met in bloodless combat, and took four Saturdays to finish out the match. The Ulster club was the victor on each occasion, and the Macquaries were compelled to give all the holdings, not having been given an opportunity of exhibiting their science with the bat at all. The Ulster club's score was 1,238, the highest individual score being 249, and the lowest being represented by the impressive "goose egg."

THE OUTLAW RUEL.—A Montreal telegraph says: "The notorious outlaw Louis Ruel, as reported last week, was some months ago secretly brought to England, Louis Point Amy, and there lodged as a lunatic. From a reliable source it is learned that an excellent common type, as he is called, is now being used to read the papers and act generally in an altered manner. He receives visitors daily, but is not allowed to receive any letters. It was deemed advisable to remove him farther away from this city, and consequently, he, on Saturday, went down to Quebec, but beyond keeping his station pretty closely, he is not to be disturbed by any other passengers. If he is dangerous to the public, he is a very mild type of lunacy indeed. His health, however, is stated to be broken, and he could, it is alleged, have claimed asylum with the medical authorities. Enquiries among all school-fellows lately have elicited nothing in regard to why he was sent to Canada, but it is hinted that he will assist abroad to have him returned now that he is a lunatic."

Court of Chancery.

MORRIS, May 22.
McFARLANE v. CHURCH.—Bill filed by Andrew G. V. Watson, who also claimed from Wellington about two years ago, to set aside a judgment rendered in 1874, from which his father-in-law, the late Joseph Cumming, the defendants succeeded upon the ground that the land had been conveyed to Watson before he was in possession of the land, and such had never been conveyed to Watson's wife. Bill dismissed without costs. Mrs. Watson and Mr. G. V. Watson for all the costs. Bill dismissed without costs. Mrs. Watson and Mr. G. V. Watson for all the costs.

ALLEN v. ALLEN.—Bill to partition a farm in Prince George's County, Md., held as tenant in common with one Nelson Allen. Nelson Allen died intestate leaving infant children. Docket returned to Master at Belleville to inquire whether sale or partition would be more beneficial for infant defendants and to proceed accordingly. If sale required, the bill to be amended to reflect the same. The bill to be amended to reflect the same. The bill to be amended to reflect the same.

MURDER AND SUICIDE.

New York, May 27.—This morning at

423 South Ninth-street, Jas. L. Lusk, a

young man, was found with his throat cut

from ear to ear, and his wife's head split

open by a hatchet. Her husband had evidently

attacked her while she was sleeping in bed.

His blood ran several blows on the head, and

he struck her brains were splattered over the

bed about the house. Believing he had killed

his wife he cut his throat, severing the wind-

pipe and several blood vessels. The cause of

the attack is unknown. Both parties being in

an unconscious state they were taken to Bel-

levue Hospital where surgeons gave the opinion

that the wounds of both were fatal.

St. Louis, May 28.—White Catrol, a well-

known stevedore man, was fatally stabbed

last night, during a quarrel with Robt. Wil-

liams, merchant.

New York, May 28.—Mrs. Mary McDowell,

whose husband attempted to kill her, and then

attempted suicide on Saturday, last, and

wrote the "Wickedest Man in New York"

sketches, was yesterday ordered

A Washington dispatch says H. L. Hanes,

office.

THE EASTERN QUESTION.

Insurance to Cover War Risks.

London, May 28.—The Times says, since

Friday afternoon insurance at Lloyd's have

been taken to cover war risks.

The Times' Paris correspondent says a final

agreement was reached on Friday last, be-

tween the Cabinets of the two Powers. The

communication calls on England to follow

up the refusal to agree to the Berlin memo-

randum with some other proposal, as it ap-

pears that the Russian Government is deter-

mined to accept the Berlin memorandum

to a simple negation. The communication

emphasizes the different means which might

be proposed for solving the pending ques-

tion, and mentions the idea of a European

Congress.

The Berlin correspondent of the Times tele-

graphs that the Serbian military, numbering

about 100,000 men, are ready for war.

Southern Slavians journals freely assert

that the Serbian Government supplies the

Bulgarian insurgents with arms and ammu-

nition, and also sends them experienced

officers.

The Bulgarians are occupying the Bal-

kan passes.

The Standard of this morning says one

hundred tons of gunpowder and a million

cartridges have just been dispatched from

Majesty's Cavalry and 10,000 cavalry, with

200 pieces of artillery, are ready for war.

Everybody remembers the story of the Czar's general, the possessor of the virtue of obedience in Russia, told him that if he was to command his general to jump into the sea from the high top of the czar's castle, the general would do it. The potentate addressed himself to his secretary, "Jump into the sea!" said the czar to the general. The latter obeyed the czar's order, and jumped into the sea. The czar was very much pleased with the general's obedience, and gave him a high salary. As the czar's general was a very good horse, the czar gave him a high salary. As the czar's general was a very good horse, the czar gave him a high salary.

ENGLAND.

Another hero of the great war (the *Admiral and Navy Gazette*) allude distastefully to Christchurch—we allude to Admiral Vernon Jackson—at the age of eighty-nine, and the original of the original—Maryland's capital character of O'Brien "Peter Sample." Admiral Jackson was the type of a British seaman. The story of his escape from different French prisons and his wanderings through the country most interesting.

The Royal Zoological Society have forwarded to Lieutenant Cameron an official letter of thanks for the animals which he brought home from Africa. Nine of the form the gift of Mr. Cameron, but the explorer has also conveyed to England Mirabou set, the largest bird of the sea, a mutant species yet imported, and two very rare birds known as "white" have been sent to the gardens by Mr. Amal and Mr. H. C. Tait, of Zozodo.

It is stated that it is the intention of the War Office to convert one of the infantry militia regiments into a militia regiment of engineers, and that during the coming season the regiment will be under canvas at Chatham, for a course of instruction in military engineering, under the direction of the Royal Engineers at the School of Military Engineering. One of the Volunteer Engineer Corps will also go under canvas at Chatham for a term for a course of instruction.

which is in course of construction at Llymmer, near Neath. In the work dynamite and gun-cotton are used, and one of the men incautiously struck a light for a pipe near to where large stores of the destructive agents were kept. A fearful explosion followed, bringing down six yards of the tunnel, and burying nearly the workmen beneath the ruins. Up to date hour on Saturday night, fifteen bodies had been recovered, and those who were rescued alive were so dreadfully injured that the recovery of some of them was very doubtful.

ing the prizes offered by the Golden Club and gained at the examination recently held by Professor Leont Levi, on the subject of his course of lectures at King's College, "Work and Wages," observed that even those who heard the lectures must have been convinced that there was an earnest desire on the part of employers to reach some ground which they and their workmen could occupy in common. The present was a period of mercantile depression, and if it were to be nothing but conflict between employers

The so-called sacrilege by Anglican clergymen in Italy is the subject of a telegram from the Roman correspondent of the *Daily News*. The despatch says:—"Referring to the statement that Anglican Protestants belonging to the Ritualist or Eucyrist sect are travelling in Italy dressing themselves as Romish priests, and are boasting of having celebrated mass in an Italian cathedral, the *Voce della Verità* published a letter from the Rev. John Higgins, a Catholic

riest, who asserts that in Amali on the 14th of April, he ascertained that two African clergymen had a few days before celebrated mass in the English language in the Catholic Church, to the astonishment of the present. Mr. Higgins "was himself asked if he had done as much. Anglo-American circles here incline to believe the original statement of the *Voce degli Italiani* is true."

SCOTLAND.

Following the example of the authorities in various burghs throughout Scotland, the Town Magistrates have resolved to do what they can to stop the use of profane language in the streets. By way of example they recently fined seven men half a guinea each.

Heavy losses have been sustained by farmers from the recent storm in the Isle of Skye. The snow drifted to a depth of ten feet in some places, and it is said that many of the young lambs perished. Sheep were

The *British Medical Journal* calls attention to the startling fact that, in Glasgow 5 per cent., in Paisley 22 per cent., and in Dundee and Greenock 41 per cent. of the population are unprovided with medical aid during their last illness, and their deaths are registered without certificate of the nature of the illness. The *Journal* attributes this state of things to the insufficiency of the Poor Law medical relief in Glasgow, there being but a small staff

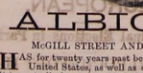

Mr. Lawrence Drew held his annual sale of Clydesdale horses as his farm at Ferryton, recently, which, as usual, attracted a very large company of agriculturists and others from all parts of the country. At the same time he sold a number of Ayrshire stock. Six Ayrshire bulls were sold at from 25 to £10-10s.

The heifers, from £17 to £30 10s. The typhoid calves exposed consisted of brood mares and young stock, the former a splendid lot, and the latter mostly the progeny of the celebrated "Prince of Wales," which was shown in the ring and looked as grand as ever. The highest priced brood mare was sent to Dumfriesshire, Mr. R. Gordon, Armlough Mains, Ruthwell, being the buyer at 265 guineas. High prices were the order of the day.

The great fire which occurred in Buchanan street, Glasgow, was not so serious as at first supposed, as far as the Glasgow Herald office is concerned. The three

beared several, although the premises were considerably damaged by fire and water. The *Herald* office has been greatly damaged, a cooking depot occupying the fore, and a bookbinders' premises above have been entirely gutted, and the contents of several warehouses and large shops have been injured by fire or water. Work was entirely suspended at the *Herald* office for two hours, the compositors having to wade through the flames, but it was then resumed under considerable difficulties. Great excitement prevailed in the city, as large crowds gathered to witness the conflagration. The damage is estimated at
